# T3RRA Ditch

T3RRA Ditch is the world's most advanced in-cab ditching system. In conjunction with John Deere's iGrade it allows you to survey, design, optimise, and implement drain and ditching operations with ease.

## Surface drains made easy

T3RRA Ditch has all you need for designing and implementing your ditches and levees

### More applications

- Elevation surveys
- Drains
- Levees

### Better compatibility

- Works with many data formats and 3rd party systems
- Fully integrated with John Deere iGrade and John Deere collected data
- No data lock-in

### More designs

- Linear and best-fit drains
- Full backslope/batter design
- Auto drains
- Pattern drains
- Levee guidance

### Better features

- Easy to use wizard operation
- Continuously updating progress maps
- 2D and 3D data views
- Animated rainfall simulation
- Advanced survey features (pausing, multi-direction collection, splitting, extending)

## Benefits

- Minimal earth moved to achieve the same water movement outcome.
- Savings in fuel, equipment, labor and time.
- Improved drainage efficiency and irrigation opportunities.
- Great for roads as well as drains.
- All surveyed data is compatible with other T3RRA products.
- T3RRA Ditch can be upgraded to our full landforming package (T3RRA Cutta) at any time for more features and functionality.
- Export guidance lines for automatic steering (John Deere AutoTrac™ required)

## Support

T3RRA Ditch is supported by the best service and support organization in agriculture - the John Deere dealer network.

# About T3RRA

Rooted in agriculture, we are an innovative agile company that develops easy-to-use, powerful software that just works. Founded by 5 partners who have 125 years of agtech experience between them, we are dedicated to meeting the needs of farmers across the globe.
