

T3RRA Cutta

T3RRA Cutta is the world's most advanced in-cab landforming system. In conjunction with John Deere's iGrade it allows you to survey, design, optimise, and implement earth moving operations with ease.

Fully Loaded

Out of the box, T3RRA Cutta gives you more features and functionality than any competing system.

More applications

- Elevation surveys
- Full field levelling
- Drains
- Levees

More designs

- Single and dual plane best-fits
- Multi-fit optimization
- Multi regions
- Variable direction field smoothing
- Surface offsets
- Linear and best-fit drains
- Auto drains
- Pattern drains
- Levee guidance

Better compatibility

- Works with many data formats and 3rd party systems
- Fully integrated with John Deere iGrade and John Deere collected data

Better features

- Easy to use wizard operation
- Continuously updating progress maps
- 2D and 3D data views
- Animated rainfall simulation

*To see how we stack up against the competition please see our T3RRA Cutta comparison brochure.

Whole farm optimisation

T3RRA Cutta comes bundled with T3RRA Design - our comprehensive desktop design package. All the design capabilities of T3RRA Cutta (and more) but extended to a desktop computer to allow finer adjustments and full farm development.

Support

T3RRA Cutta is supported by the best service and support organization in agriculture - the John Deere dealer network.

Benefits

- Minimal earth moved to achieve the same water movement outcome.
- Savings in fuel, equipment, labour and time.
- Improved drainage efficiency and irrigation opportunities.
- Improved water use efficiency
